As an enthusiastic IT student, I am driven to learn about mobile development and back-end technologies, with a particular interest in effective server management and installation. Additionally, I am eager to explore Linux environments and master API development.

EXPERIENCE

Patuli: Pahlawan Tuli as Android Developer   May 2023 - Jun 2023

Associated with Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka, Remote

- Patuli (Pahlawan Tuli) is an Android application focused on teaching and facilitating communication in sign language using Bisindo motions.
- The application integrates machine learning capabilities through TensorFlow Lite.
- The main goal of the application is to provide a tool for learning sign language using Bisindo gestures, regardless of whether the user is deaf or not.
- By utilizing machine learning, the application can enhance the learning experience and improve communication for individuals who rely on sign language.

Mobile Development (Android) Student   Feb 2023 - Jul 2023

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka · Internship, Remote

- Acquired critical soft skills, such as developing a development mindset, giving constructive criticism, and learning about a range of worthwhile subjects.
- Dipped into the hard skills of mobile development, learning the principles of Android layout and styling and investigating contemporary architectures such as the Model-View-ViewModel pattern.
- As part of the capstone project, I worked with a team to combine cloud computing, machine learning, and Android development tools to create an application that solves a practical issue.

Assistant Lecturer   Feb 2022 - Jul 2022

Universitas Atma Jaya Yogyakarta, Yogyakarta

- Supporting the instructor as they study logic data structures in hands-on classes.
- Producing data structure content in C language.
- Assisting the instructor with course assignment correction.
